RE: Potential sewer project affecting: Ash Road

Thank you for attending the informational meeting regarding the sewer construction project for the Newton Street, East Avenue, West Avenue, Will Road, Ash Road and Newton Place areas.

Enclosed please find a summary of the questions asked and answers provided at the meetings that took place on May 16 and May 19, 2009. I have also included the map of neighborhood septic repairs I presented. Finally, if you did not turn in your feedback survey at the meeting, I have provided you with an additional copy.

The Sewer Authority has planned a public hearing to receive feedback on the proposed project for Tuesday, June 30, 2009. The time and location of the public hearing still have not been confirmed, but I will update you by mail as soon as the information becomes available.

Gathering your feedback is a *very important* part of this process, so I urge you to take the time to complete the entire survey and then return it to me in the postage-paid envelope. Please return your survey by Friday, June 5, 2009. Survey results will be summarized and a copy of those results returned to you in advance of the public hearing.

In the meantime, if you have any specific questions about the survey or the project itself, please contact me. I am committed to keeping you up to date on everything pertaining to the project and any next steps of the process. I can be reached at (860) 823-4516 or jeffdewey@npumail.com.

Sincerely,

Jeff Dewey, P.E.
Project Manager/Utility Engineer
